Profile Summary:

Results-driven Business Analyst with 2.5+ years of experience translating complex **business requirements** into **data-driven solutions across enterprise and digital product environments**. Skilled in **stakeholder management, requirement elicitation, Power BI dashboard development, and AI-powered process automation**. Demonstrates consistent track record of improving operational efficiency, reducing reporting overhead, and supporting data-informed C-level decision-making. Actively embraces emerging technologies including **Generative AI and LLMs** to elevate analytical workflows.

SKILLS

Business Analysis: Requirements Elicitation, Process Mapping, Gap Analysis, Stakeholder Management, Risk Assessment, User Stories, BRD / FRD Writing

Data Analytics: Power BI (DAX, Power Query), SQL, Python, Excel, Statistical Analysis, Dashboard Development

Project & Delivery: Agile / Scrum, Clickup, Cross-functional Collaboration, Change Management, Documentation.

Cloud Technologies: AWS, Azure.

Emerging Technologies: Generative AI, LLMs, AI Agents, Automation, Machine Learning(Basic).

WORK EXPERIENCE

- **Business Analyst - Pixel Web Solutions, Madurai (Full-time) - August 2025 - Present**

Responsibilities:

- Automated Power BI reporting using DAX, SQL, and Power Query, reducing manual effort by **45%**.
- Led requirement gathering sessions and created **BRDs, FRDs, and user stories** for client projects.
- Optimized workflows through root cause analysis, improving operational efficiency by **25%**.
- Accelerated documentation and reporting workflows using AI tools, reducing turnaround time by **50%**.
- Coordinated Agile sprint activities with development, QA, and design teams.

- **Jr.Business Analyst- Metafic, Bangalore (Full-time) - January 2024 - January 2025**

Responsibilities:

- Developed Power BI dashboards and automated reporting systems, reducing reporting effort by **60%**.
- Conducted gap analysis and workflow optimization, improving operational efficiency by **35%**.
- Facilitated **stakeholder workshops** to gather business requirements and define project deliverables.
- Streamlined Agile project coordination, improving delivery timelines and reducing rework.

- **Business Analyst Intern - Natur Tec, Chennai(Full-time) - January 2023 - May 2023**

Responsibilities:

- Built Power BI dashboards for sales and financial reporting using **Tally ERP data**.
- Developed **Budget vs Actual** reporting using DAX and Power Query for forecasting analysis.
- Optimized Power BI data models and queries, improving dashboard performance by **50%**.

PROFESSIONAL PROJECTS

- **Pixel Web Solutions | Firefox.VIP | Firefox Mini-App | Telegram Bot**

Worked on a multi-module crypto trading ecosystem supporting Spot, Futures, and Swap trading using various tech stack. Managed business requirement gathering, workflow planning, and feature documentation for trading dashboards, affiliate modules, Telegram bot integration, Tatum wallet integration, KYT (Know Your Transaction) compliance workflows, KYC onboarding, 2FA authentication, and multi-chain (ERC-20, BEP-20, TRC-20) deposit/withdrawal systems while coordinating with development, QA, and UI/UX teams in Agile sprint environments.

- **Pixel Web Solutions | Zayro | Web & Mobile Application**

Worked on a multi-module crypto trading platform supporting Spot and Futures trading workflows using real-time trading architecture. Prepared BRDs, user stories, and workflow documentation for trading modules, wallet systems, KYC onboarding, transaction management, order processing, portfolio tracking, gamified multi-level referral systems, and dedicated affiliate program workflows, including multi-chain deposit/withdrawal features, while coordinating Agile sprint execution and cross-functional collaboration between development, QA, and UI/UX teams to streamline feature delivery.

- **Pixel Web Solutions | BNQ Corp ICO Platform | Web Application**

Worked on an ICO-based crypto fundraising platform using React.js, Next.js, Bootstrap, REST APIs, and blockchain-integrated workflows. Prepared BRDs, user stories, and process documentation for token sale management, investor onboarding, KYC verification, vesting schedules, token allocation, smart contract interactions, wallet integration, transaction tracking, and multi-chain payment workflows while coordinating Agile sprint execution with development, QA, and UI/UX teams to streamline platform delivery and investor operations.

- **Climate Risk Management Platform | Metafic**

Led business analysis for an enterprise climate risk assessment platform targeting Fortune 500 companies using Power BI, SQL, Python, and ESG reporting frameworks. Prepared stakeholder documentation, process workflows, and reporting structures to identify climate risk impacts, support mitigation strategies, and streamline ESG compliance analysis while collaborating with cross-functional teams in Agile development environments.

- **AI-Powered Tender Review Automation | Metafic**

Worked on an AI-powered tender review and intelligent document processing platform using Python, AI automation workflows, OCR-based document analysis, and reporting frameworks for public procurement analysis. Designed business workflows, requirement documentation, and automated review processes that reduced manual processing effort by 75% and improved compliance analysis accuracy for government and enterprise clients.

EDUCATIONAL BACKGROUND

- **Post Graduation - Master of Science (M.Sc Data Science) (Specialization: Data & Business Intelligence)** **2021 - 2023**
The American college, Madurai, TN | CGPA - 9.0 / 10
- **Under Graduation - Bachelor of Science (B.Sc Physics)** **2018 - 2021**
St.Joseph's College, Trichy, TN | CGPA - 8.0 / 10

COURSES & CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300) (Pursuing)
- Google Data Analytics Professional Certificate
- Google Cloud — Multimodality & Multimodal RAG
- Cutshort Certified Python — Advanced
- IIBA ECBA (Business Analysis Fundamentals) (Optional Future Add)

ACHIEVEMENTS

- Featured among the **Top 50 Data Analyst Experts** on Topmate.io for expertise in data analytics, reporting, and business intelligence solutions.
- Ranked among the **Top 6% participants** in Preplnsta National Hiring Competition, demonstrating strong analytical and problem-solving capabilities among **100,000+ participants**.
- Achieved and consistently maintained a **9.0 CGPA** in M.Sc. Data Science, reflecting strong academic performance in analytics, machine learning, and business intelligence domains.
